

The Vernal Equinox is when ...

1. the Sun crosses the Ecliptic in the Spring
2. the Sun crosses the Equator in the Spring
3. the Sun crosses the Ecliptic in the Fall
4. the Sun crosses the Equator in the Fall

The Autumnal Equinox is when . . .

1. the Sun crosses the Ecliptic in the Spring
2. the Sun crosses the Equator in the Spring
3. the Sun crosses the Ecliptic in the Fall
4. the Sun crosses the Equator in the Fall
