

Just for the *heck* of it, you decide to drive from Ann Arbor to Hell, Michigan (about 20 miles northwest). When you get there you immediately turn around and drive back. Except for the brief stop, your speedometer reads 35 mph during the entire trip. Consider the following statements:

- A. Your average speed is zero
- B. Your average velocity is zero
- C. Your average speed is 35 mph
- D. Your average velocity is 35 mph

Which of these statements is true:

1. A and B
2. A and D
3. B and C
4. B and D
5. something else
